Religious Meetings in the Open Air, and **Sermons That**

TOUCH EVERY HEART.

A Few Faithful Christians Gather to Praise and Pray,

STILL TRUSTING IN GOD.

IFROM OUR STAFF CORRESPONDENTS,] JOHNSTOWN, June 9 .- "The groves were God's first temples," and never under such held in open air than the numerous outdoor gatherings of to-day. Realizing the awful well. culamity which has betallen this community, every degree of society communed together to-day regardless of sect or person.

The services were attended by many people whose ears had never listened to the teachings of God; whose hearts had neverevolved a secret prayer, or whose thoughts had never drifted to things divine; they were there, and realizing the vast destruction of precious lives and property, as expatiated upon by the preacher, with the connecting sad circumstances, hearts of adamant were softened and tears flowed from the stricken sufferers been chosen by the relentless hand of fate.

It Was a Touching Sight to study the faces of the hearers, some of whom probably had attended the religious services in the hope of receiving a word of specor and an assurance of safety of loved ones on another shore. Upon a rude store box in front of the temporary postoffice, Rev. D. J. Beal, of the Presbyterian Church addressed the remaining members of his congregation in a most affectionate manner. He said in substance: My Dear Friends and Followers:

I find that words are inadequate to express my sorrow resulting from the awful visitation of God's Almighty hand in our midst, but we are only admonished to prepare for the Maker's call. He has seen fit to take away thousands of our people, and the calamity has shocked the whole civilized world. To extend my sympathy would avail nothing, but we can live in ultimatum of the sad story.

I received a cablegram from a gentleman in Scotland inquiring for the safety of Mr. and Mrs. Childs. I looked upon the list of the dead and found that they were among the missing, I immediately answered their foreign friends, They are lost, but both gone to heaven." knew of a Christian man who, when the flood was creeping down on him and his family, grasped a Bible and opened it to read. fear God fear nothing. Fearful Tests of Faith. Mr. J. Hatch followed Rev. Mr. Beal. He was tortunate in saving his life after a thrilling experience, but his wife was washed away. He said he trusted in the heavenly father and His infinite love for his safety. There is salvation in prayer, he thought, and he hoped that they all might prepared to meet the ones who had gone when the time came. William H. Tumblestone also addressed the gathering and was followed by a fervent prayer by Mr. Hatch

and the singing of the doxology.

Another meeting was held this afternoon, which was attended by a large concourse of people, who were touched by the thrilling and tearful experiences of those who were rescued. There were instances where many who were lost showed the virtue of Christianity, and with the happy hope of meeting again the un ortunate ones, went down to death, to meet again in heaven.

The Rev. Father Tahaney, of the parish of St. Mary's, whose church was destroyed by fire immediately after the flood, held a short service this morning, and after mass gave his parishioners a "practical talk," as he expressed it. He said:

Must Endeavor to Forget. A little over a week has passed since the waters of the South Fork dam, bursting through their prison walls, swept through the valley of the Conemaugh like an avalanche, and in a moment destroyed the work of years of human labor. Thousands of your dearly loved relatives and friends perished in the loved relatives and friends perished in the seething torrent before our very eyes; scarcely one among you but who has to mourn the loss of father, mother, brother or sister. Many of you are homeless and dependent upon the charity of friends or perhaps strangers, and yet I say to you "Hope." Great as has been our affliction, heavy as our burden seems, we must endeavor to forget. God our Eather who is His infinite visions.

Father, who in His infinite wisdom, has seen fit to thus afflict us, knows all things and acts for the best. Although we can't appreciate it now, perhaps the destruction of our loved Johnstown may be the means adopted by God to bestow some great lesson and consequent. benefit to the human race. A public meeting for religious worship was held in Morrellville last night, at the headquarters of the Americus Club Relief Committee, under the auspices of that so-Rev. E. G. The Americas choir, Messrs Noble, Voigt, McCord and Reese, opened the service by singing Treasurer be used for restoring the vicinity the very appropriate hymn, "Nearer, My God to Thee." and staredt that he considered "originality was an impossibility;" that everything we do or say finds its origin in the law of Al-

God. Mr. Laughrey claims that the law of God is perfect, inasmuch as where the works of God are not tampered with by human interference, there is no danger to be apprehended. He deplored the readiness with which people consider every accident a visitation of Providence, and not the natural result of their own folly or eareless-

with God's work by attempting to dam and force a stream out of its natural bed there would have been no accident, and the valley of the Conemaugh wouldn't now be in tears. The Services at the Camp

of the Fourteenth Regiment were conducted by Rev. L. Maguire, an old Methodist minister, and chaplain of the regiment. The audience sang "Come, Thou Fount of Every Blessing." Chaplain Maguire announced his text, "Trust in the Lord and do good, so shalt thou dwell in the land." Befor delivering his sermon the congregation sang "Jesus, Lover of My Soul," and while it was being sung Mr. George W. Moses went up to the pastor and said: 'Cora, my wife, sang that while we were

floating down the river, and we were both Dr. Maguire said that there were 1,074 members of the Stone Church in Johnstown and only 37 were lost. Rev. Mr. Colliven

then made a few remarks. He was followed by John Fulton, General Manager of the Cambria Iron Works, who told a tragic tale of the flood and of the evidence of the power of God in saving some who wept this morning instead of being grateful.

The Governor has \$250,000 in his hands now for the relief fund. A committee of seven well-known men of the State will be appointed to distribute the relief fund, and the present Relief Committee is to continue the work of relief till the commission is appointed. After the commission has been appointed the future operations of the Pittsburg Relief Committee rests with them. An Old Lady's Body Recovered Separate Miles From Ber Daughter.

FROM A STAFF CORRESPONDENT.] JOHNSTOWN, June 9.-This afternoon Mrs. Livergood was found in the Sandy Vale Cemetery, sitting in her rocking chair. The lady was 78 years old, and they have been looking for her body since the flood. She was covered with debris, and when it was removed there sat the old lady in her chair, with her arm dangling over the arm of the chair. Her position was quite lifelike and natural.

Mrs. Livergood's daughter, who was in the house with her, was found a few days ago miles from the cemetery. This only il-lustrates the queer antics of the water in separating friends and relatives. ISRAEL.

straightway went to Mrs, Catharine O'Dea, who keeps a grocery at 219 in the same street, where Mrs, McCarthy has been in the habit of running up fortnightly bills. Mrs. McCarthy paid her bill, which amounted to a little over 56, and received something more than \$13 in change. On Friday afternoon, when the baker's man came to collect his bill from Mrs. O'Dea, she handed him a \$20 note: he handed back the note, laughing, and asked her if she expected him to turn in a Confederate note to his employers. ROME, June 9 .- The Pope is much depressed. It is reported that he refuses to see anybody and that he has passed three days absorbed in prayer in his private chapel. Four hundred telegrams have arrived at the Vatican deploying the unveiling of the Bruno monument. All the Ambassadors accredited to the Vatican met this afternoon in the Pope's expected him to turn in a Confederate note to his employers.

Mrs. O'Dea said that this was the note that she had got from Mrs. McCarthy. She sent her son with the note to Mrs. McCarthy. Mrs. McCarthy had not noticed the note particularly. She knew nothing about Confederate money. She thought that very likely it was this Confederate note that she had given to Mrs. O'Dea, but Florence said that he knew better. He declared that the bill he had given his mother was the one he had received from his employer and was genuine, and he advised chapel,

RACING IN FRANCE.

The Winning Horse in the Grand Steeple chase at Autenii Yesterday. PARIS, June 9,-The grand steeplechase a

Auteuil to-day was won by Le Torpilleus, with The Sikk second and Fairfox third. There were 14 starters. The last betting was 5 to 1 against Torpilleus, 7 to 1 against Sink, 2 to 1 against Fairfox, 3 to 1 against Fetich, 7 to 1 each against Bellona and Chippeway, 20 to 1 against Lord Chatham, 25 to 1 against Plais, and 30 to 1 each against Trinidad and Primaute. At the start Primaute, Fairfox and Trinidad took the lead, with Lord Chatham and Bellona in the rear. The lot kept a steady pace to the big brook, which all cleared in tine style. At the wail Chippeway fell, throwing his rider, who, however, regained his seat. On the third round Chippeway took the lead, but he was unable to maintain it, and retired.

On the last round Primaute and Royal Meath fell, and Lord Chatham, who was in front, took the wrong course, thus spoiling his chance of against Fairfox, 3 to 1 against Fetich, 7 to 1 excitement, and in a moment apparently all the streets were filled with people anxious to learn the cause of the strange alarm. Many thought it was a call for the Eighteenth Regiment to go to Johnstown: others thought a big fire had broken out at City Hall, while many more thought a riot had broken out and the call was for the police. A grand rush was made for Central station, and when the peaceful condition of the officers sitting about there was seen the crowd carried the word along and soon dispersed. fell, and Lord Chatham, who was in front, took the wrong course, thus spolling his chance of winning. A SENSATIONAL SUIT.

x-Senator Sabin Wants a Divorce From His Wife on the Charge of Drunkenness-The Case Begun in a Minnesota Court-Its Probable Re-

Sr. PAUL, June 9 .- A divorce case has been begun in the district court of Washington county of the most sensational character, both on account of the national prominence of the parties and from the shocking acts which surround the proceedings in whispers. This is no less than a suit brought by ex-Senator D. M. Sabin against his wife, The summons was served personally upon Mrs. Sabin at Flushing, Long Island, something over a week ago, but the complaint has not yet been filed in court. The charge made in the complaint is that

of habitual drunkenness, an allegation which in itself will be most shocking to the society of Washington and other cities where Mrs. Sabin has long been a shining light. It is asserted that Mrs. Sabin had for some time previous to her marriage been ably appear before the Coroner's jury to-morrow. Two men, one whom Martinaon it is claimed, has been indulged in to a greater of less extent ever since, and in later years she has added to it the use of intoxicating liquors. It is use o stated that during the absence from home of Mr. Sabin she occasionally indulged in liquors and drugs to excess. At the close of Mr. Sabin's Senatorial career Mrs. Sabin was placed, at her own request, in the Asylum for Inebriates at Flushing, where she is at the present time. Socially, Mrs. Sabin is a most fascinating lady, and during Mr. Sabin's Senatorial career in Washington she gave weekly receptions, which were among the most popular given by any lady in that city, and attended by the most distinguished people.

It is doubtful whether the fault of which she is charged in the complaint ever became apparent to any of her Washington guests, or came to the knowledge of her friends there. Mr. and Mrs. Sabin have no children of their own. The fact that a suit is commenced will be news to all, J. N. Searles, of Stillwater, is Mr. Sabin's attorney. What course Mrs. Sabin will pursue is not yet known, but it is believed she will not resist the suit. She has still many warm friends, and will be the subject of wide sympathy. The ex-Senator also has the sympathy of all who know him in this most unfortunate affair.

SOMEWHAT CHEERING.

President Nimick Makes an Encouraging Statement About the Club. President Nimick made the important statement yesterday that so far this season the local ciub had not lost a cent. Mr. Nimick ought to be in a position to know, but other officials of

the club stated a few days ago that the club had at least lost \$10,000. It will be seen that there is a wide discrepancy between the two statements, but there is no reason whatever to think that Mr. Nimick's statement is not correct. It is safe to say that it is, and it must be accepted as true. This declaration on the part of Mr. Nimick

vill undoubtedly be a surprise to many people; however, it is a pleasure to say that the sur-prise will be a happy one. During a conversation yesterday afternoon, Mr. Nimick said:
"The club has not lost a cent so far, but it has made nothing. Of course, our receipts are bort of what they were last year at this time, and that may in a measure be deemed a loss. If we had been at home last month instead of be ing abroad we would have been considerably

out of pocket, as the weather has been

wretched here. However, I still have the utmost confidence in the team. I feel certain that the boys will come out all right as soon as our pitchers get into condition. Certainly I think Manager Phillips did right in putting Staley in to pitch first at Cleveland. WANTS THE YOUNGSTERS TRIED. "I believe in trying the youngsters as much as much as possible; not only Staley, but the others also. All that is needed at present is patience and public encouragement. Nothing

will do the players more good than words of

cheer by the press. They are passing through great difficulties, and they need kindly words rather than censure." President Nimick is in receipt of a circular from President N. E. Young regarding the de-mands and propositions of the Players' Brotherhood. Each club President in the League has been supplied with a copy, but the definite contents of the circular are rigidly kept secret. However, it is known that the object of the circular is to secure the opinions of the various Presidents on the matter. Mr. Nimick has not declared himself on the question yet and will not likely do so until his and the other Presidents' opinions have been forwarded to headquarters. While it may be taken for granted that the club will stick rigidly to a limitation of salary rule, it may be that it will be willing for some change in the present graded salary plan. That plan seems doomed, and it is interesting to note how leading au-thorities are now advocating objections to it that were pointed out in this paper when the plan was hurriedly adopted. Here is Presi-

dent J. B. Day's latest opinion, as expressed to Mr. Larner, of Washington: WHAT MR. DAY SAYS.

"While Mr. John B. Day was here last Monday I had the pleasure of a few minutes' chat with him at Capital Park, on the subject of the classification rule. He denounced the system in most emphatic terms, and argues that every club should have the privilege of saying how much it can afford to pay its players. He insists that he is better able to judge how much he can pay certain players than President Young or any other man who is not familiar with his individual affairs. Mr. Day does not appear to have any well-defined system to substitute for the classification rule, yet he claims that he is not an advocate of fancy salaries, and asserts that the abolition of the classification rule will be beneficial to the weaker as well as the stronger clubs. He has not yet furnished me with a satisfactory explanation of his proposition, but I suppose he has one. He says he would be in favor of a salary limit, and would live up to it if the other clubs would do the same. He says he would also be in favor of pooling the receipts of all the clubs and have an equal division of the plunder. Mr. Day is a great wag, and it is possible that he was guying me. I could not help but wonder if he was in earnest, and also whether he would have suggested a division of the gate receipts if his club had continued to play at the Polo grounds."

CAYLOR'S VIEW OF IT. O. P. Caylor's opinion of it is as follows: "It is not surprising that there is dissatisfaction among players and club owners over the classi fication rule as it exists in the League. result is natural. The League and the Association are a great deal like the two houses of Congress in their relations to each other. You can't make radical rules for one and not for the can't make radical rules for one and not for the
other so long as the two is governed by a code
of general laws. The class rule will never work
satisfactorily in one body while it is ignored by
the other. It will never work well either until
the players have a voice in the classification.
I would rather trust men like Asson and
Comiskey to do this work than any League or
Association 'magnate' or officer. Let the
players have a voice in the matter and Pil warrant the total sum of salaries will not be inrant the total sum of salaries will not be in-creased thereby, but there will be five times the satisfaction given that there is given now by the League rules."

These expressions of opinion are significant, and though, as above stated, the objections are not new, they will bear Apeating by influential gentlemen like Messrs. Day and

PAPECIAL TELEGRAM TO THE DISPATCH. PHILADELPHIA, June 2.—Arthur Irwin, for so long the Captain of the Philadelphia team, has been sold to the Washingtens for a reported sum of \$1,000. The sale of Irwin's release was sum of St.Out. The sale of irwin's release was consummated on Saturday when President Walter-Hewitt came here and made an offer which President Reach accepted. The Washington club has been after Irwin for some time, but President Hewitt would not agree to pay the sum demanded for his release until he was forced to do so for want of a competent short aton for his team.

forced to do so for want of a competent short stop for his team.

Irwin will receive a salary of \$3,200 and will be captain of the Senators. John Morrill will still play on the team and be manager, while Irwin will have exclusive control of the Senators while on the field. The Philadelphias, as re-constructed, will include Ward, late of New Orleans, on second, Hallman at short and Fo-garty as captain.

A Correction.

There was a significant error in paragraph headed, "It is Really Robbery," in Pringle's Review yesterday. The sentence: "There are gentlemen fluorially interested in baseball every year, while, on the other hand, there is scarcely a ball player in the League who can save considerably every year," should have read: "There are gentlemen financially inter-ested in baseball who are losing money every year, while, on the other hand, there is scarcely a ball player in the League who cannot save considerable every year."

John Temple, the well-known horseman of this city, returned from the East on Saturday, and during a conversation yesterday said some interesting things about the Eastern trotters and drivers. Kelly was recently driving a young trotter in a race where Mr. Wood Martin was judge.
Kelly had won two heats and Mr. Martin had reason to call Kelly up to the stand and re-

The "Geeser's invitation was not accepted,

but it quieted Mr. Martin.
Mr. Temple also stated that "Uncle" John E Turner intends to take charge of a stable of runners next fall. What he intends to do with his trotting stable is not definitely known. Mr. Temple further gave information to the effect that John Murphy, the famous driver, is dying, and is not expected to live many days. Murphy has had a long and honorable career. He was never known to throw a race and was Mr. Bonner's private driver.

There is but one sensible thing to do, and that is to purify the water by mixing it with something that destroys all poison or disease-breeding germs, and nothing does this like pure whiskey. But it may be asked, where can I obtain pure whiskey? Professor Henry A. Mott says, "the purity of Duffs's Pure Malt Whiskey is absolute, and should commend it to the highest public favor." There are hundreds of families that are drinking water constantly, and are kept in perfect health by simply mixing a little of Duffy's Pure Malt Whiskey in each glass they drink.
